

Course Syllabus

[Jump to Today](#)

The following experiments will be carried out in this Lab.

Lab Experiment/Task

- 1
- Ohm’s Law, KVL, and Voltage Divider Rule using Series Circuit
- 2
- KCL, Current Divider Rule with Parallel and Ladder Circuit
- 3
- Loading Effect of Voltage Divider Circuit
- 4
- Delta-Wye Conversion
- 5
- Verification of Superposition Theorem
- 6
- Verification of Thevenin’s, Norton’s and Maximum Power Transfer Theorem
- 7
- Charging and Discharging of RC circuits

Course Summary:

Date	Details	Due
